

	Country	Field	Water depth [m]	Project / Scope of work	Client	Year
1.	Norway	Skagen fiber	600	Skagenfiber installation FO submarine cable Project Management and Engineering Installation of 170km of FO submarine cable Burial of 170km of FO submarine cable	Skagenfiber (Altibox)	2020
2.	Nigeria	Anyala & Madu OML 83 & OML 85	50	FPSO Joseph Abigail Mooring installation Project Management and Engineering Mobilisation of mooring spread Installation & pre-tension of 16x anchors Installation of 16x mooring lines	Yinson and First E&P	2020
3.	Nigeria	BLOCK OML 123	40	FPSO Adoon Moring line inspection Project Management and Engineering Disconnection and inspection of 2x permanent mooring chains on the FPSO Adoon and associated CALM buoy	Yinson	2020
4.	India	Dhirubhai	1150	Decommissioning of riser, dynamic umbilical & mooring lines Project Management and Engineering Production, gas export & gas injection risers decommissioning Dynamic Umbilical decommissioning Risers/dynamic umbilical buoyancy modules recovery Mooring lines recovery STP buoy ballasting and handling	Aker Floating Production	2020
5.	Nigeria	Anyala & Madu OML 83	50	FPSO Abigail-Joseph Mooring hook-up Project Management and Engineering FPSO station-keeping activities FPSO Moorings hook-up activities for 16x lines FPSO moorings tensioning activities for 16x lines	Yinson and First E&P	2020

	Country	Field	Water depth [m]	Project / Scope of work	Client	Year
6.	Germany	Winkinger	40	Wind farm wet stored cable recovery Project Management and Engineering Power cables recovery Power cable onshore transpool	Prysmian	2019
7.	Tunisia	Halk El Menzel	50-70	Halk El Menzel Installation project (complete field development) Project Management and Engineering Mooring Spread Installation for 2off Calm buoy Jacket and Topsides Installation Flexible Flowline Lay PLEM Installation 2off Calm Buoy Hook Up Riser Installation	Topic SA / Sarost SA	2017
8.	Canad	Cecon excellence transportation	-	Cecon Excellence Transportation Project Management and Engineering Contracting of Heavy Lift Vessel Seafastening Calculations Stability Assessment On Site Supervision	Cecon	2016
9.	Tunisia	Ashtart	50	Ifrikia II disconnection Project Management and Engineering Replaced 6 x 130 m anchor chain Chain inspection Hook-up of intermediate FSO Disconnection of electrical cable Disconnection of 20" and 10" risers Disconnection of the Ifrikia II FSO	Serept (ETAP-OMV JV.) / Sarost SA	2015

	Country	Field	Water depth [m]	Project / Scope of work	Client	Year
10.	Sweeden	Sotenäs	50	Sotenäs wave energy park Project Management and Engineering Installation of Low Voltage Marine Substation, 110 ton structure Subsea hook-up of wave generators	Seabased Industry	2015
11.	Holland	QD-1	26	QD-1 Pipeline Installation Project	Wintershall NL	2013
12.	Holland	D15-A	40 – 60	D18 Orca Pipeline Installation Project	GDF Suez EP NL	2013
13.	Holland	P15-C	25	Q13 Amstel Pipeline Installation Project	GDF Suez EP NL	2013
14.	Holland	L5-A	40	L5 Sierra Pipeline Installation Project	GDF Suez EP NL	2013
15.	Nigeria	Okwori	130 – 140	OK27 & OK28 Well Swaps Project Project Management and Engineering Recovery of 2 off 6” flexible flowlines and re-lay in new corridors Recovery of 2 off umbilicals and re-lay in new corridors Procurement of required temporary items	Hydrodive - Addax	2013
16.	Nigeria	Okwori	140	Installation of flexibles and umbilicals Project Management and Engineering Installation of the follwing client provided products: 4 off 6” ID Production risers/flowlines FPSO to WH OK-23 to OK 26 4 off control umbilical/risers FPSO to WH OK-23 to OK 26 Water depth: ~ 140 m	Broron Oil & Gas - Addax	2012
17.	Norway	Skarv	350	CTS lines Installation Project	IKM/BP	2010

	Country	Field	Water depth [m]	Project / Scope of work	Client	Year
18.	Angola	Block 3, Pacassa	86 - 96	Installation of 8 km 10" steel flowlines Project Management and Engineering Procurement of 8 km of 10" API 5L X65 linepipe Transportation of line pipe from mill to fabrication site Onshore fabrication of triple-joints Procurement of piglaunchers and receivers, all required temporary items Offshore installation of 8 km of 10" rigid pipeline	Sonangol / Angolan Drilling Company	2009
19.	Angola	Block 3, Canuku	45	Ocean Producer Recovery Project Project Management and Engineering Design of complete flowline and umbilical recovery system Recovery and de-commissioning of 12 rigid flowlines and 8 umbilicals, totally 46 km of product Recovery of 7 off Pipe Line End Termination Supply of all required assets to facilitate the de-commissioning of the products	Sonangol / Angolan Drilling Company	2009
20.	Angola	Block 2, Morsa West	20	Morsa West Rigid Pipelay Project Project Management and Engineering Procurement of 26 km of API 5L X65 rigid linepipe Transportation of Linepipe from pipemill to fabrication yard Onshore fabrication of triple-joints Offshore installation: 20,1 km of 6" and 5,8 km of 4,5" pipeline	Sonangol / Angolan Drilling Company	2008
21.	Norway	Kristin	370	Kristin Temporary Loading System Project II Installation and recovery of 1 off 8" temporary loading system hose from Semi to tanker Navion Britannia, length 550 m Installation and removal of similar 1 off 8" temporary loading system hose	Statoil	2008

	Country	Field	Water depth [m]	Project / Scope of work	Client	Year
22.	Angola	Block 2, Morsa West	20	<p>Morsa West Cable and Umbilical Project</p> <p>Project Management and Engineering Offshore installation of the following Company provided products: 2 off Utility umbilicals, between Morsa West and satellites, total length 10.05 km 5 off Power cables, between Morsa West and satellites, total length 25.3 km</p>	Sonangol / Angolan Drilling Company	2007
23.	Norway	Kristin	370	<p>Kristin Temporary Loading System Project I</p> <p>Project Management and Engineering Installation and recovery of 1 off 8" temporary loading system hose from Semi to tanker Navion Britannia, length 550m Installation and removal of similar 1 off 8" temporary loading system hose Water depth ~370m Fast track projects, about 2 months from call off to de-mob</p>	Statoil	2007
24.	Angola	Block 2, Morsa West	20	<p>Morsa West Pipelay Project</p> <p>Project Management and Engineering Procurement of 45.5 km of API 5L X52 Rigid Linepipe Transportation of Linepipe from pipemill to fabrication yard Onshore fabrication of triple-joints Installation of 34 km of 6" pipeline Installation of 11,5 km of 4,5" pipeline</p>	Sonangol / Angolan Drilling Company	2006
25.	Angola	Block 3, Canuku	45	<p>Canuku Gas Pipeline Project</p> <p>Project Management and Engineering Installation of 3 off 4" Gas Lift risers, hang-off at the Ocean Producer FPSO Installation of 3 off 3 km 4" off gas lift lines Flowline stabilization with concrete mattresses</p>	Sonangol / Angolan Drilling Company	2005

	Country	Field	Water depth [m]	Project / Scope of work	Client	Year
26.	Nigeria	Okoro	15	Okoro Flexibles Project Project Management and Engineering Offshore installation of the following client provided composite flowlines: 1 off 4" Gas Lift flowline Production from FPSO to WHP, length 800m 1 off 6" Test Production flowline from FPSO to WHP, length 800m 1 off 8" Main Production flowline from FPSO to WHP, length 800m	DeepFlex	2007/2008
